Positive Event (Uplift) Scale

This scale asks you to think about the positive events (uplifts) that you *experienced in the last month*. Positive daily events are the small day to day happenings that lead people to feel uplifted. From such events people can feel inspired, alert, attentive or active. Positive events can also lead to feeling emotions such as interest, excitement, strength, pride, determination and enthusiasm.

For each item, circle in the *left column* how often that event occurred (for example, circle **1-3** if the **event happened 1 to 3 times**). It is important that you try to remember the number of times the event occurred during the last month. Then in the *right column*, indicate how much of an uplift each of those events were (on average) during the same period (for example circle **1** if it was **a little of an uplift** or **4** if it was **an extreme uplift**). If the event did not occur, circle 0 in the left column and then move on to the next item without scoring a number in the right column. Please consider each item only with *the last 4 weeks (previous month) in mind*.

How Often?

0 = did not happen
 1-3 = happened 1 to 3 times
 4-6 = happened 4 to 6 times
 7-9 = happened 7 to 9 times
 10+ = happened 10 times or more

How much of an Uplift (average)?
