Code Number or Name: _____

Events With Others

Instructions. Below are listed a series of events. We would like you to make three responses to each event: 1) estimate the probability or likelihood that the event would occur within the next year; 2) estimate the probability or likelihood that if the event occurred, you would end the relationship; and 3) estimate the probability that if the event occurred, your partner would end the relationship. Circle the number that best corresponds to your estimate of each of these probabilities of occurrence; then, insert estimates on following items.

(1) Partner flirts with a member of the opposite sex within the next year.

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

 Probability that event would occur

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

If event occurred, probability that
 you would end the relationship

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

If the event occurred, probability that
 partner would end relationship

(2) Partner passionately kisses a member of the opposite sex within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(3) Partner goes out on a romantic date with someone else within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(4) Partner has a one-night stand with someone else within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(5) Partner has a brief affair within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(6) Partner has a serious affair within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(7) You flirt with a member of the opposite sex within the next year

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(8) You passionately kiss a member of the opposite sex within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(9) You go out on a romantic date with someone else within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(10) You have a one-night stand with someone else within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(11) You have a brief affair within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

(12) You have a serious affair within the next year.

_____ % probability that event would occur within the next year

_____ % if event occurred, probability that you would end the relationship

_____ % if event occurred, probability that partner would end relationship

Thank you.
