

- 0: Score 0 for either a. Therapist did not attempt it
 b. Therapist attempted it partially
- 1: Therapist fully completed the therapeutic technique. Partial or questionable attempts do not count. If the child or caregiver did not seem to comprehend the construct this does not count “against” the therapist. This codes for the therapist’s attempts, not the effectiveness.

- ___ tfc86 Reminded caregiver that reluctance may get worse.
 If reluctance was none, therapist must at least verbally note this to score 1.
- ___ tfc87 Explained homework to them and gave homework check sheet.
